## Local High Drops Game to Waukegan

Antioch Township High lost its first game of the season last Saturday, when the strong Waukegan team defeated them 12 to 3 on Waukegan's field.

This was the hardest game experienced by both teams up to the present time and both teams were lucky to come out of such a battle without any serious injuries. Antioch kicked off to Waukegan, the ball traveling almost to the goal line. Waukegan tried to pass across the field but the ball went out of bounds. Waukegan punts on the first play was blocked by Wilson and Simpson fell on the ball. Antioch lost ground in their first two plays so Spicer dropped back to the twenty-five yard line and sent a perfect place kick between the bars for Antioch's only points of the game.

On the next kick off Waukegan started a steady drive down the field which took them across for their first touchdown, by means of a forward pass. Their kick for point was blocked making the score at the end of the first quarter 6 to 3.

The second quarter was scoreless with both teams doing a lot of punting and fighting hard for a break.

The second half was just as hard fought as the first with Antioch having the advantage until a forward pass was intercepted and then Waukegan started another march towards the goal line which took them across for their second touchdown.

The last quarter both teams sent in several substitutes with the result that no scoring took place in this quarter and the game ended with the score Waukegan 12, Antioch 3.

The locals play at Arlington Heights this week end in their first conference game of the season and the result of this game will show whether Antioch is to be a contender for the championship or not.

**ANTIOCH CONQUERS LIBERTYVILLE IN PUNTING DUEL 9-0.**

The Antioch lightweights conquered Libertyville in a hard fought game last Friday afternoon. Libertyville's line out-weighted Antioch, so the locals relied on Michell's punting to keep the opponents out of scoring territory. The first quarter was spent with both teams striving for possession of the ball. In the second quarter a pass, Alvers to Cremin netted twenty yards and on the next play Michell went over for a touchdown. The extra point was completed by a pass, Alvers to Cremin. The score Antioch 7, Libertyville 0. Antioch lost the ball on downs on Libertyville's four yard line. Instead of Libertyville punting they tried an end run, but were tackled behind their own goal by Cremin and scored two more points for Antioch. Antioch had the edge on Libertyville thru out the game, the defensive work of Sheehan, Cremin Fisher and Murrie was remarkable, as was the line plunging of Michell and Monier. The game ended Antioch 9, Libertyville 0.

20th Sunday after Trinity.  
7:30 Holy Communion.  
9:30 Church School.  
10:30 Holy Eucharist.  
7:30 Vespers.

It has been a great joy to the Parish to have as its honored guest the Rev. Edward J. Cooper a missionary of the church stationed at Panama. His sermons and services have been a joy and source of inspiration to all that have attended them. He will be with us next Sunday and the order of service is to be noted above. It is hoped that many who are unable to attend the morning services will make an earnest effort to be present at the evening Vesper Service. It is not often that we have the opportunity to come in contact with a spiritual power such as Fr. Cooper is. Let us take advantage of his visit.

Mr. Dixon and Fr. Cooper are in Milwaukee attending the Catholic Congress. Thousands of church people from all over America will be present to honor the Sacred Mysteries of our Holy Religion. Alas many do not understand or care to understand the great intellectual appeal and spiritual power that resides in the Christian Church.

The Confirmation lectures for adults will continue at the 10:30 service and for the children at the 9:30 Church School Service. It is hoped that many as possible will purchase the "text" book "The Practice of Religion" by Canon Knowles. The cost is only 75c and may be purchased at the pamphlet table on the Church porch.

Sunday night a new order of the older boys Beta Sigma Alpha was organized. It is of a social and athletic nature. Lloyd Murry is the Grand Master of the Order.

On Sunday, October 24, at 6:30 the girls of St. Ignatius will serve a supper to all the young people that are interested in a Young Peoples' Society. Officers of the National Church Fraternity Gamma Kappa Delta will be on hand to explain the Society and it is hoped that at that time a Sunday Evening Club for the Young People may be organized. It is hoped that as many members of the Parish that can possibly do so will pay up their pledges for the support of the Parish to date before the Quarterly Report goes to the Bishop.

**GLACIER CUTS DOWN MOUNTAIN IN PATH**

**Vast Alaskan River of Ice Changes Its Course.**

Cordova, Alaska.—Heavy Glacier has changed its age-old course and is now literally pushing its way over the top of a mountain to reach the sea, declare observers returning from the vicinity of Mile 75.

What was first thought smoke issuing from the top of a peak near here later developments show to be great clouds of dust caused by the breakup of the soil under the pressure of the ice river.

Henry Weikins, soundough, who has traveled over a large part of the territory investigating geological freaks, visited the scene and inspected the glacier's actions. He heard the tons of rock, pushed by the glacier, falling into canyons below, causing crashings audible for five miles. The mountain side has the appearance of heavy blasting operations.

Due to the tremendous pressure resulting from the slow progress across the mountain, the glacier has buckled and mammoth cracks crosswise are noticeable. The peak of the mountain being slowly disintegrated is about 3,000 feet high but composed of soft shale. Prospectors believe the whole mountain will soon crumble from the pushing of the irresistible force of the ice structure.

**Doerschuk Quits Farm Post When Board Wrangles**

Executive Committee Votes 8 to 6 For Registration After Long Squabble, Is Report.

J. J. Doerschuk, farm adviser for the Lake County farm bureau, has resigned, the resignation to take effect Nov. 1, it was admitted Tuesday by Doerschuk and D. H. Minto, of Antioch, who is president of the bureau.

Although members of the executive committee were inclined to be silent on the action one member admitted that the resignation had been asked after the board had it out and voted 8 to 6 for Minto refused to discuss the matter after he had admitted that the resignation had been tendered. "Was it forced or voluntary?" he was asked.

"You don't need to mention that," he replied firmly. Doerschuk was silent as well, but indicated plainly that it was not his wish to withhold anything. He left the impression that any statement to be made should come from the executive committee.

He has been in the county three years and has made many friends. The rumor that he had resigned became current Saturday but it was discounted because it was generally believed in Waukegan that he was considered a very capable leader among the farmers.

**Difference Trivial?**  
One member of the executive committee strenuously denied that the adviser and committee had differed on the policy of operation. As he outlined the trouble it had grown out of broken promises of seemingly little importance. Engagements had been made, he said, that had not been kept.

He declared that there had been a bitter fight on the board to keep the man but that the faction favoring Doerschuk had been out voted 8 to 6.

"I am still convinced that he is a very good man," he stated.

Doerschuk admitted that he had not been employed at yet.

The fight on the board came to a climax three weeks ago, it is said.

**Samoans Fear Native Oath More Than Bible**

Apia, Samoa.—White men who introduced the system of planting land and the surveyor's methods of defining boundaries, brought with them to Samoa the white man's method of administering oaths.

So, officially, the native Samoan places his hand upon the Holy Bible to swear that title to a certain piece of land belongs to him. But those who have lived here long know that at heart the native does not have the degree of fear when an oath is taken upon a Bible that he had for the old Samoan oath. Where grave issues are at stake he is apt to discard the modern form for the old one.

While the old manner varied in the different villages, the common rite was to take a bunch of grass and lay it on a stone or other object that represented the family or village god. The contesting parties would say with hand resting on the grass: "In the presence of this whole assembly, I lay my hand on the grass: if I have declared falsely, may I suddenly die."

**Blush Is Rare**

Munich.—Blushing is rare nowadays and may arouse suspicion, in the words of a Bavarian judge, but it is not evidence of guilt. And so the conviction of a shy youth, who was much confused when a stenographer accused him of theft, has been reversed.

## The Pep Board

The pep board was organized two years ago by Miss Bauck for the purpose of interesting more students in athletics. The board during the past two years sponsored short entertainments previous to the games after which there was yell practice led by Mr. Stark. The club consists of six members which represent the four classes. The freshmen and sophomores each have one member and the juniors and seniors have two members. Each year there are two new members elected, one freshman and one junior. The pep board has not been reorganized this year, but it will be this week.

## Antioch Light Triumph

Friday the boys of the second team went to Libertyville for their second game of the season.

There was not much fast playing until the beginning of the second quarter when the lights began to play hard and they made their touchdown when Mitchell went through right tackle.

The third quarter was hard, and neither side scored.

During the last quarter we made a tuckback after much hard work.

The Latin League was organized in 1925 especially for acquiring special books, charts and material for carrying on more efficiently the study of Latin in our high school.

Last year a speaker from the University of Illinois gave a very interesting talk on "Caesar's Gallic War." It was illustrated by the use of slides.

Arnold Shunnesson and Lester Nixon were Chicago visitors last week.

## "Ag News"

The agriculture club is here in full strength and fighting the same as ever.

The club is formed and has a meeting every Wednesday where they are able to discuss the betterment of the farmers problems.

Mr. Kutil with the boys of the poultry club made a very good showing at the Waukegan Exposition.

The high school won first in the school exhibit competing against Gurnee.

The Farm Management class this year is handling the A. T. H. S. Exchange which is for the betterment of the community and helping them and the students to put their products on the market and finding buyers for the same. So far it has been very successful and we hope you will give use your patronage.

## Glee Club

Our girls have ambitions this year.

There are no many things which we hope to do, that it certainly will be an achievement worth mentioning if we accomplish them all. A Girls' Glee Club is working under considerable difficulty in trying to please the public. If they do the kind of thing which is adapted to their voices, lovely light things, the public usually goes away disappointed.

For it takes an appreciative audience to understand the music of a girls' concert? Boys' on the other hand can give the peppy heavy music which pleases. So when we offer an entertainment in the future we hope the people of Antioch will come anticipating pleasure and enjoyment and will leave with fulfilled expectations.

## Home Economics Club

The Home Economics Club has held two meetings. The first meeting was for the organization of the club and the election of officers.

Those elected were: President, Amelia Bennofolo; Secretary, Lois Hunter; Treasurer, Myra Fisher.

The second meeting was held two weeks later dealing with the discussion of business. The question was discussed how the club could earn money in which to help furnish a small rest room when the new building is finished. The club at present has \$150 in the bank which is to be used for that purpose.

## School News

Preliminary reports were sent out the latter part of last week and, as usual, caused much discussion among the students.

At a meeting of the teachers on Thursday evening it was decided that the standard of athletics would be raised. Up to this time, to be in form of athletics the boys have had to have a passing average in three subjects. Beginning with the next six weeks the players will have to have a passing grade in four subjects or they will be eliminated.

Assembly was held Friday morning and Mr. Bright said that no cars were to leave the schoolyard at noon, without first receiving a special permit to do so. This has been on the verge of happening for some time, due to the actions of several people as soon as they leave the schoolyard.

If there is anyone who has any history books or historical novels who would care to donate them to the school they would be greatly appreciated by the teachers and pupils of the history classes.

The contest which is held annually by the school to get subscription

for the 'Country Gentleman' 'Ladies Home Journal' and 'Saturday evening Post' is being conducted by the seniors, only, this year. There are three groups, designated by a blue, green or red tag. The blues are ahead with the red following, although not many subscriptions have as yet been turned in.

A few weeks ago the seniors picked out their invitations and cards for graduation next spring.

The rings which the Juniors ordered have arrived.

## The Chorus

This year the two Glee Clubs have joined and created a new organization namely, the Chorus.

A few new members who have ability have been admitted, swelling the number to forty.

They have been studying some of the Glee Club music in preparation for a rather intensive study of four part music on which they will begin to work soon.

It is the aim of the organization to give a public concert sometime before the Christmas Holidays.

## Boys' Glee Club

Twelve boys who have the most promising voices were chosen from last years glee club. The boys are as follows: Emil Hallwas, William Schwenk, Charles Michell, Homer Tiffany, Russell Spicer, Arlee Gullette, Lester Nixon, Joseph Bernoflo, Louis Forbrich, Ray Van Patten, Robert Morley and Robert Wilson.

Under the direction of Miss Bauck we expect much from our glee club this year. We are planning on giving a concert sometime early in the spring. The glee club practices three times a week during the noon hour.

Freshie—"I heard Morley was hurt while he was on the '11'."

Senior—"No, he was hurt while the 11 were on him."

Mrs. B.—"Cyclone, 'the little girl next door is coming over. Go wash your face and neck."

Cyclone—"But maw, I don't want to neck."

Mr. Stark was almost electrocuted Tuesday. "He stepped on a cookie and there was a current in it."

## Pedestrian Is Hardest Hit in Auto Accidents

**Persons on Foot Involved in 70 Per Cent of All Fatalities.**

An analysis of automobile accidents collected from 80 cities in 1925 by the National Safety Council shows that pedestrians are involved in nearly 70 per cent of all fatalities due to motor vehicle accidents.

This summary covers 6,120 deaths and 145,000 injuries, approximately one-third of the total for the entire country. In addition to the 70 per cent involving pedestrians 10.8 per cent were due to collision between motor vehicles, 5.6 per cent to automobile accidents not involving a collision, 4.7 per cent to collision between motor vehicles and street cars, 3.5 per cent to collisions between motor vehicles and some fixed object, 2.7 per cent to collision between automobiles and railroad trains and 2.9 per cent to collision between motor vehicles and other vehicles.

## Pedestrians Injured.

Pedestrian accidents also represent approximately 55 per cent of the total number of fatal personal injury accidents according to this investigation.

By far the greatest number of pedestrian accidents were due to the fact that the pedestrian was walking, running or playing in the street, or the driver did not have right-of-way at intersections. Next in importance was crossing the intersection against the signal, or crossing the street not at the intersection, or the driver of the automobile was exceeding the speed limit or driving on the wrong side of the street.

## "HARD" ROADS SAVE BIG SUM

**Highway Builder Shows Improvements Net Motorists \$1,600,000,000 Annually.**

Motorists of the United States save more than \$1,600,000,000 annually in motor vehicle operating costs as a result of the construction, since 1904, of 135,000 miles of hard-surfaced roads and 153,000 miles of gravel roads, according to W. H. Connell, president of the American Road Builders' association.

"Such a saving in motor vehicle costs for the United States exceeds the annual cost of the improved highways," Mr. Connell declared. "In Pennsylvania alone an analysis of operating costs of motor vehicles proves conclusively that the construc-

## KILLS UNCLE IN SQUABBLE OVER TRACT OF LAND

**Boy's Aim Deadly in Duel Precipitated by Quarrel of Elders.**

Lexington, Ky.—Samuel Whittaker, nineteen-year-old son of a prominent Magoffin county family, has just been released on \$20,000 bond at Salersville, Ky., southeast of here, for the alleged murder of his uncle, Jesse Hale.

The trouble started between William Whittaker, forty years old, and his brother-in-law, Jesse Hale, thirty-five years old, in regard to a tract of land, the ownership of which was claimed by both. The elder Whittaker failed to shoot down his brother-in-law and was on the point of being killed himself, when his son, Sam Whittaker, appeared on the scene.

Hale Only Shot Fatal. Sam coolly asked for his father's weapon and challenged Hale to come out in the open and fight him. At the first shot young Whittaker put a bullet through his uncle's heart, thus ending the battle, according to reports received here.

Young Whittaker was taken to Salersville, the county seat, by his

father and another uncle, W. B. Shepard, and released under \$20,000 bond for his appearance at an examining trial.

According to reports, the trouble was precipitated when Hale and his son came upon the Whittakers and a crew of workmen constructing a road through the land in dispute. The elder Hale, it is claimed, immediately opened fire, and a dozen men, including the Whittakers, scurried to safety behind trees and rocks.

## Fight From Behind Trees.

Hale and the elder Whittaker, brothers-in-law, concealed behind trees, in Indian fashion, started to shoot it out. Their defenses proved impenetrable, and young Sam Whittaker, according to reports, grew tired of watching his father's shots bury themselves in the tree.

"You're doing no good," Sam told his father, and, taking his weapon, challenged Hale to step out in the open and fight like a man.

Hale accepted the taunt and moved from behind his tree, facing his challenger. Both fired, apparently simultaneously. Hale fell, shot through the breast, and died within five minutes. Young Whittaker was untouched.

Hale is survived by his widow, his mother, nine children and a number of sisters and brothers.

## Sent to Prison for Fatally Beating Child

Hastings, Minn.—Anthony Lucking, farmer of Marshall, alleged to have beaten to death his eight-year-old orphaned nephew, Arthur Mauer, has been sentenced to state prison for from one to fifteen years.

Lucking's trial started in the District court and six jurors had been selected when the defendant decided to plead guilty to a charge of second degree manslaughter, saying he "wanted to get it over with."

Arthur died of a cerebral hemorrhage after he had been whipped with a rubber hose. The beating was administered because Lucking thought the lad had stolen 65 cents, according to county authorities. The money was found in a bureau drawer the day after the child died.

## Hypnotized Lion Wakes, Tears Arm Off Trainer

Berlin.—The iron will of a man, seriously wounded and suffering agonies of pain, but triumphing over a lion's ferocity, was witnessed at a Hamburg circus by panic-stricken thousands. Herr Labero, who specializes in experiments of human will power over the world's most ferocious animals, had cowed a powerful lion into unconsciousness, but when the lion re-awakened he buried his claws into the shoulder of the artist, leaving only shreds of his arm. Herr Labero stared at the attacking lion, which subsided into unconsciousness. Labero was then helped out of the cage by attendants and doctors.

## The Coaches Have Many Hard Knocks

(Dedicated to L. R. Watson.)  
The Coach—He's a Genius—He's a Bust—He's a genius, a miracle man, when his team wins, but when the team loses, what a boob he is—what a dunce! Seldom is a thought given to his work in training the lads in the principles of good sportsmanship, the far more important task of molding character, and his educational work along the lines of promoting clean, alert minds, and strong, healthy bodies.

### What a Snap

Is it fair to measure a coach's ability solely upon the success or failure of the team? Of course not. But let's see what a soft job he has. Why is he expected to turn out a winning team regardless of the material he has, and in many cases that's just as easy as building a fleet of dreadnaughts out of a bunch of canoes.

He must condition the players—not a difficult task—only sometimes he is confronted with physiques whose limit of endurance would be reached in a fifteen minute session with a ukulele.

He must install a fighting spirit, that's simple, too—but as simple as changing a continental. Natural disposition into that of a Roman warrior. Surely it must be simple to "put the old fight" in a bunch of present day pastry consumers whose idea of combat is a fuss about whose turn it is to buy the sodas.

### Too Many to Satisfy

To please the student body, he must turn out a winner—to make good with the alumni, his team must have a high percentage of victories—for those old "grads" who like to tell what mental wizards and bone-crusher they were in the old days. And if the truth were known, those who yelp the hardest are the ones whose mental alertness and physical activity, when they were on the squad, were measured by the degree of frequency their own coach applied the wet towels where they'd do the most good. There are the boys so vitally interested in Alma Mater they feel privileged and obligated to express their opinions freely—so they "help the team" by knocking the coach, telling the old his system "is the bunk" and that the "poor boob" doesn't even know the game.

### The Any-Way-To-Win Boys

And the town "sports" those experts on vivisection, who stake their all—all four bits—on the team's chances to win—what a holler they make when the team loses. The loss of a game make them sick, or rather aggravates a sickness that is already chronic, they have a disease known as "blowharditis," and the only cure for it is embalming.

### Odd Jobs

The successful coach has some "chores" in addition to his effort to add to the figures in the "W. Column," these are a few of the things he has to do.

Arrange Satisfactory Schedules  
Engage competent officials  
Raise money for expenses  
Select proper equipment  
See that it is cared for  
Keep athletes eligible  
Treat injuries  
Study and practice psychology  
Arouse school spirit.  
And there are a thousand and one petty details which he must take

care of himself or see that they are properly handled.

### A Temporary Job

With all of his responsibility, all of his troubles and all of his duties, he must work with the knowledge that his job is a temporary one, an agreement, and if the result of his labors is not represented by the "scaps" of the school's opponents, he is asked to leave.

We don't know a thing we can do about it except to sympathize with the coach and we'd rather sympathize with one than BE ONE.

Luteran is the name of a church in Rome dedicated to St. John. It was originally a palace of the Lateran, a prominent Roman family, and was given to the bishop of Rome by the Emperor Constantine. Eleven councils of the Latin church have been held there.

## Collie Hikes 1,700 Miles in Returning to Home

Benton Harbor, Mich.—A distance of 1,700 miles, a journey of a day and a half through mountains and across two river courses were not enough to prevent Pal, a four-year-old collie, from returning to his Benton Harbor home from Florida, where he had gone with his master.

The trip to Florida was made last spring. Three weeks after arriving there, Pal disappeared. Four weeks later he reappeared in Benton Harbor.

Pal had dropped in weight from 72 to 55 pounds, and his claws were worn smooth from his travels, but he was as glad to get home as though he merely had been making a night's journey.

# Amazing Lumber

{NOT CUT FROM TREES}

adds new comfort . . .  
saves money

It builds homes Winter-warm . . . Summer-cool . . . costs little or nothing more . . . saves 1/3 fuel money!

ALREADY more than 90,000

homes have been built with an amazing lumber. A lumber that shuts out both the discomforts of sweltering Summer heat . . . and the biting cold of Winter . . . that keeps every room at a healthful, unvarying temperature the year 'round . . . that cuts fuel

costs by 1/3.

This amazing lumber is Celotex. It is not cut from trees, but manufactured in broad strong boards from the tough fibres of cane. It is enduring . . . scientifically sterilized and waterproofed. Celotex is stronger in walls than wood lumber and many times better

as insulation. Wind and moisture can not penetrate it. It quiets noise.

ACTUALLY saves money. Unlike ordinary insulation, Celotex is not an extra item in building. Wherever used, it replaces other materials, adding insulation at little or no extra cost.

With the walls and ceilings or roof of your house covered with Celotex, a smaller, less expensive heating plant and smaller radiators will keep you comfortable. And year after year, Celotex will save from 25% to 35% of your fuel money!

NEW COMFORT for old houses. In houses already built, a big measure of this comfort and economy is being secured by lining attics and basements with Celotex.

Let us tell you more about Celotex before you build or buy.

### Training a Child

How to teach children is a problem, whose difficulties are expressed by an English authority. Dr. J. A. Hadfield, in the terse statement: "The three main principles in the training of children are to make them do what one wants, to let them do what they like and to make them like what they do."
